

自我介绍(湖南大学复试)

Dear professors,

I'm very glad to be here for this interview. My name is Du min. I'm 25 years old, from Le'an, a beautiful city in Jiangxi Province. I will graduate from University of Electronic Science and Technology of China, Zhongshan Institute in July, 2018. Recently, I have been trying my best to gain the approval(批准) of Hunan University.

During my study in the college, I have many interests such as running, reading and coding, and I work hard in my major. I always concentrate my attention to do something I am interested in. With my efforts in the four years, I have won National Endeavor Fellowship(国家励志奖学金) for three times. In 2017, I got the Software Designer Qualification Certificate(软件设计师资格证书). In addition, I took part in the competition of process design in our school and won a silver award. Furthermore, I'm interested in Java very much. And I have developed some android applications. Last October, I finished my graduation-design program named ZhiXinApp, which is an android application including function modules such as News, Chatting robots, Weather information and Face recognition. And I also have preliminary(初步的) knowing about Big Data Technology.

At present, I am not a competent in the profession, because of lacking rich knowledge and ability. So, I think the urgent thing for me is to study further in your honorable school to get more and deeper knowledge and realize my value. In my opinion, Big Data technology is playing an increasing important role in our modern society and it will create more chances for us. Therefore, I want to learn and master this technology. I will be diligent in studying here. I believe myself and I can find a good job in a big company like BAT after three years.

OK. That's all. Thank you for your attention.

译文:

亲爱的教授们,

很高兴来这里面试,我叫杜敏,25岁,来自江西乐安这座美丽的城市。在2018年七月,我将毕业于电子科技大学中山学院。最近,我正在尽我所能获得进入湖大学习的机会。

在大学期间,我有许多兴趣爱好,比如跑步、阅读和编程,并且我在专业方面学习刻苦。我经常专注于去做我所感兴趣的事情。大学四年,我曾三次获得国家励志奖学金。在2017年,我获得了软件设计师资格证书。此外,我还参加过学校的程序设计比赛,并获得过银奖。紧接着,我对Java很感兴趣,并且开发了一些安卓应用。去年十二月,我完成了我的毕业设计——知心App,其中包括新闻、聊天机器人、天气、人脸识别等功能模块。我对大数据技术也有一些了解。

目前,我还不够专业,因为我缺乏丰富的知识和能力。因此,我认为对我来说最迫切的事情就是在贵校深造学习获得更深层次的知识并且实现自我价值。在我看来,大数据技术正发挥着越来越重要的作用,并且它给我们带来更多的机会。因此,我想学习并且主修大数据这门技术。我会在此勤奋的学习。我相信在三年后我能在像BAT一样的大公司找到一份好工作。
